> clean & lovable

Save water at baby's bathtime with the clever Baby Dam Bathwater Barrier ($59.95). The flexible 'dam' fits easily into any standard straight-sided bathtub to create a watertight seal, temporarily reducing the size of the bath so you can use less water to bathe your child. From department and baby stores, see www.goldbug.com.au or phone 9533 0024 for more information.
